Encountering Development The Making And

The development apparatus generated categories powerful enough to shape the thinking even of its occasional critics while poverty and hunger became widespread. "Development" was not even partially "deconstructed" until the 1980s, when new tools for analyzing the representation of social reality were applied to specific "Third World" cases.

Arturo Escobar's book Encountering
Development is one of the foundational
works of post-development studies. His
research calls into question
development as an institution, as an
ordering system, and as a tool of
capitalism and western hegemony.

Arturo Escobar (anthropologist) - Wikipedia

Encountering Development represents what has become an unfortunate growth industry in the 1980s and 1990s: postmodern critiques of the development industry. Escobar presents some stimulating criticisms of the whole development paradigm along with an assortment of critiques so abstract and jargon-ridden that it is difficult to understand what he and his compatriots actually mean.
